

Hampstead Garden Suburb – Children Services

All the services have a defined framework so that they achieve our educational objectives, and so that there is a level of continuity regardless of who is taking the service. In addition, there is a necessity to use extra material and not just go through the davening. This will enable us to make sure the services are fun, welcoming, inclusive and educational.

Each service should therefore consist of two parts, all of which should be age appropriate:

1. Tephilla
2. Extra material e.g. Sidra / Midot.
